SUMMARY

Full stack developer skilled in MERN stack with strong problem-solving abilities in Java and hands-on experience across the complete development lifecycle. Comfortable building RESTful APIs, designing databases, and crafting responsive frontend interfaces from scratch. Proven ability to deliver production-level projects that solve real-world problems.

WORK EXPERIENCE

Web Full Stack Developer Intern-W3AppDevelopers

Jan 2026 - March 2026

Worked across various web development projects contributing to both frontend and backend tasks. Developed a full-stack MERN application for internship certificate applications with integrated payment processing and company-side approval using React, MongoDB, and Express..

PROJECTS

Internship Certificate Portal (MERN Stack)

[Link to github](#)

Full-stack web application for students to apply for internship certificates online with payment processing, company approval workflow, and real-time status tracking.

Smart Financial Advisor (MERN Stack)

[Link to github](#)

Built an AI-powered smart financial advisor that takes user income and expenses as input to calculate budget planning, insurance recommendations, investment strategies, and comprehensive financial guidance.

Blockchain Based Voting System(MERN + Blockchain)

[Link to Demo](#)

Decentralized voting application where votes are recorded as immutable on-chain transactions, ensuring transparent tallying and tamper-proof results. Integrated MetaMask wallet authentication and deployed smart contracts on Ethereum testnet using Solidity and Hardhat.

EDUCATION

2026 - Present	B.Tech IT at Kongu Engineering College	(CGPA: 8.10)
2024	Class 12th at Geethaanjali All India Sr Sec School	(85%)
2022	Class 10th at Geethaanjali All India Sr Sec School	(87%)

CERTIFICATIONS

Udemy	Frontend Developer
Infosys Springboard	Node.js,MongoDB

SKILLS

Frontend	React.js, HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
Backend	Node.js, Express.js, REST APIs, Authentication (JWT)
Database	MongoDB, MySQL , Supabase
Languages	Java,Python,C
Tools	Git, GitHub, VS Code, Vercel, Render,Docker
Area of Interest	Web3,De-Fi
